Home: south Mandail, 1310 Dhaka (Bangladesh)

ABOUT ME

I am a Third-year B.Sc. CSE student at the University of Asia Pacific with a strong foundation in Python, Java, and C. I am deeply motivated to expand my expertise in Artificial Intelligence and explore how intelligent systems can solve real-world problems.

EDUCATION AND TRAINING

Secondary School Certificate

Keraniganj Girls School and College , Dhaka Board [1 Jan 2018 – 31 Jul 2020]

City: Dhaka | **Country:** Bangladesh | **Level in EQF:** EQF level 2

"Studied core science subjects including **Higher Mathematics**, **Physics**, **Chemistry**, and **Biology**. Developed basic problem-solving skills and a fundamental understanding of scientific principles and **Information and Communication Technology (ICT)**.

Higher School Certificate

Begum Badrunnesa Government Girls' College , Dhaka Board [1 Jan 2021 – 31 Dec 2022]

City: Dhaka | **Country:** Bangladesh | **Level in EQF:** EQF level 4

"Completed Higher Secondary education with a focus on **Physics**, **Chemistry**, **Higher Mathematics**, and **Biology**. Gained a strong analytical foundation and practical laboratory skills. Also studied **Information and Communication Technology (ICT)**, covering basic programming logic and digital systems."

Bsc in Computer Science and Engineering

University of Asia Pacific [1 Jan 2024 – Current]

City: Dhaka | **Country:** Bangladesh | **Level in EQF:** EQF level 6

Core coursework included Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Software Engineering, Database Management Systems, and Artificial Intelligence. Gained practical experience through laboratory work and project-based learning in software and hardware development.

SKILLS

Microsoft Powerpoint / Microsoft Office / Microsoft Word / Django Framework & Django REST / Python (computer programming) / GIT (GitHub) / Python libraries (NumPy, Pandas, Keras, SciKit-Learn, TensorFlow, Matplotlib, Seaborn) / use object-oriented programming / Web Development: HTML 5, CSS, JavaScript / Java (computer programming) / Visual Studio / Visual Studio Code / SQL/MYSQL / C++

LANGUAGE SKILLS

Mother tongue(s): Bengali

Other language(s):

English

LISTENING B1 **READING** C1 **WRITING** B2

SPOKEN PRODUCTION A2 **SPOKEN INTERACTION** B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

[1 Nov 2024 – 30 Nov 2024]
Student Record System Dynamic memory allocation with linked lists for student records. Supports add, delete, search, update, and display with persistent file storage.

Link: https://github.com/Itz-Rafin/C-small-projects/blob/main/Student Record System/Student Record.c

[1 Feb 2025 – 30 May 2025]
Airline Reservation System Complete backend system implementing flight management, passenger registration, seat booking/cancellation, and file-based data persistence. Demonstrates encapsulation, inheritance, polymorphism, and exception handling.

Link: https://github.com/Itz-Rafin/airline-reservation-system

[1 Nov 2025 – 1 Jan 2026]
Weather App Desktop GUI application fetching real-time weather data. Handles 15+ error cases including network issues, invalid cities, and API failures.

Link: https://github.com/Itz-Rafin/python-small-projects/tree/main/weather-app

[1 Feb 2026 – 4 Apr 2026]
Portfolio Website Personal portfolio with smooth scrolling, mobile-friendly layout, interactive elements, and an embedded AI chatbot powered by the Anthropic API.

Link: https://github.com/Itz-Rafin/itz-rafin.github.io

[2 Mar 2026 – Current]
EarthWatch - A real time crisis monitor "Developing a web-based real-time crisis monitoring system using the **Dja ngo** framework. The platform is designed to track and visualize global environmental crises and natural disasters in real-time. It integrates external APIs to fetch live data, providing users with critical updates and geographical insights through an interactive dashboard."
