Date of Birth: 09/04/2005

Gender: Female

Marital Status: Single

Address: Keraniganj, Dhaka, ..

Nationality: Bangladesh

I am a motivated Computer Science student with a passion for web and software development. Through my academic projects and hands-on practice, I have gained experience in building functional web applications, backend systems, and creative solutions. I continuously learn new technologies, solve problems efficiently, and aim to turn ideas into real-world digital solutions. My strong foundation in programming, algorithms, and software engineering allows me to contribute effectively to development projects while continuously growing as a professional.
